2. To explain about the various facets of cyber crimes
3. To enhance the understanding of problems arising out of online transactions and provoke them to find solutions
4. To clarify the Intellectual Property issues in the cyber space and the growth and development of the law in this regard
5. To educate about the regulation of cyber space at national and international level

→ DIPLOMA IN CYBER LAW

In the ambit of technology and Law, Law has always been at the curve of the highway chasing the developments of technology and ends often issuing violation tickets. Law needs to provide a road map to technology with appropriate signals and speed breakers for its safe driving. The need of the times is that of a strong legal research orientation which needs to travel along with technological developments if not in advance. Such an effort can make Law as a management tool, of rights and obligations in the interface of technology and Governance. The need or avoidance of legislation on cyber processes has been the crucial battleground among legislators, civil society and technical professionals. The course designed to expose the candidates to the existing legislations, the comparative jurisprudence, the emerging challenges and the balance of freedom of expression and accountability by regulation will serve as a strong foundation to deal the cyber operations in professional as well as personal front. The quality diploma programme in Cyber Laws meets the Professional needs of the working professionals like technologists, policy makers, enforcement officials and legal professionals.
